

Round 1 user testing: Manufacturers

Maintaining and updating data

1. Manufacturers proactively updating PDM data

Importing data via an API

Importing data via a form in PDM

Importing data via a spreadsheet upload

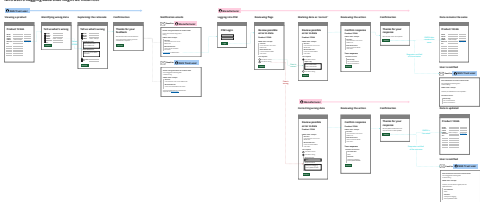

Importing data via uploading PDF/forms

2. NRG users flag where and when they need data

NRG users flagging data that might be incorrect

NRG users request data that PDM already collects

NRG users request data that PDM doesn't currently support
