

Round 1 user testing: Data consumers

'Paper' prototype of finding and viewing 13 datapoints

Home page

Product Information Management (PIM)

Use PIM to find information about a medical product such as:

- classification codes, like NHS eClass, Risk class, or UDI-DI
- the manufacturer's details
- medical information, for example unit of issue, single use, sterile

Search by product name, manufacturer, or the UDI-DI

Search result page
